

Jaicer Tables

Design by Allermuir

Jaicer tables are designed with the same aesthetic and constructional values as the seating range. Jaicer as a range has been designed to work across a multitude of environments; be it in adhoc use in a contemporary office, as an elegant statement

in a meeting room or perhaps more obviously as a café or dining solution in a corporate or hospitality environment. The solid beech frames that are traditionally constructed and machined, are clear lacquered as standard and can be stained or colour washed, provide

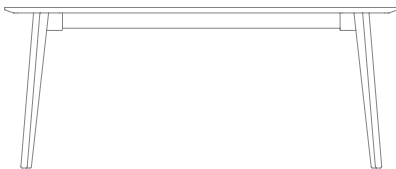

excellent strength and a sleek appearance. The frames support 25mm MDF tops that are finished in a broad range of laminates and feature a cut back edge profile.
