

Axyl Tables

Design by Benjamin Hubert | LAYER

Axyl tables follow the same design typology and constructional values as the rest of the Axyl collection, featuring the distinct frame. A table for every occasion. Axyl Café & bistro tables are perfect for smaller gatherings while the dining

tables suit larger groups and more formal settings.

Axyl tables are exceptionally robust for continued use in high impact dining areas. The use of a solid steel stem on café range,

greatly enhances the stability of the table while minimising the need for a large frame base.
