## Simple, quick and affordable

Torasen™

Everything Torasen does is based on three core principles: simple, quick and affordable but that doesn't mean we compromise on quality.

We offer a wide range of well-designed functional office furniture to enable cost-conscious organisations the ability to furnish their environments in the best way they can to meet challenging budgets and timescales.

## New and Notable by Allermuir

### Aldo

Design by John Tree

Quietly confident in comfort and form, Aldo is a hard working seating collection defined by timeless café-style simplicity, enduring comfort, and adaptable configuration across a range of spaces.

### Mallow

Design by SmithMatthias

The Mallow Sofa Collection channels a nostalgic spirit with a modern edge, where comfort meets character. Its modular form and gently curved lines echo vintage design while offering the freedom to shape your space your way.

## Seating for the way we work today

### Introducing Kaya Design by Pearson Lloyd

Kaya was engineered in response to the shift in office environments, that have moved away from highly technical, complex seating toward simpler, more adaptable solutions.

Traditional task chairs didn't align with how people now work, in dynamic, collaborative, and touch-down settings. The challenge was to design a chair that could handle this variability, light, ergonomic, and intuitive, without overengineering — the outcome was Kaya.
