

# Meet CellPod

An architectural room system

**SENATOR**

# Powered by Privacy

Isolation isn't about being alone but about having the personal acoustic and visual privacy to get your task done.

We've all embraced hybrid working and the transition to online meetings for offsite co-workers, as well as, clients, suppliers.

CellPod offers exceptional acoustic privacy empowering users to talk more freely in the comfort that they won't be heard but also that they won't disrupt their co-workers.

# Your Possibilities are Endless

Phone Calls

Video Conference

Solo work

Training

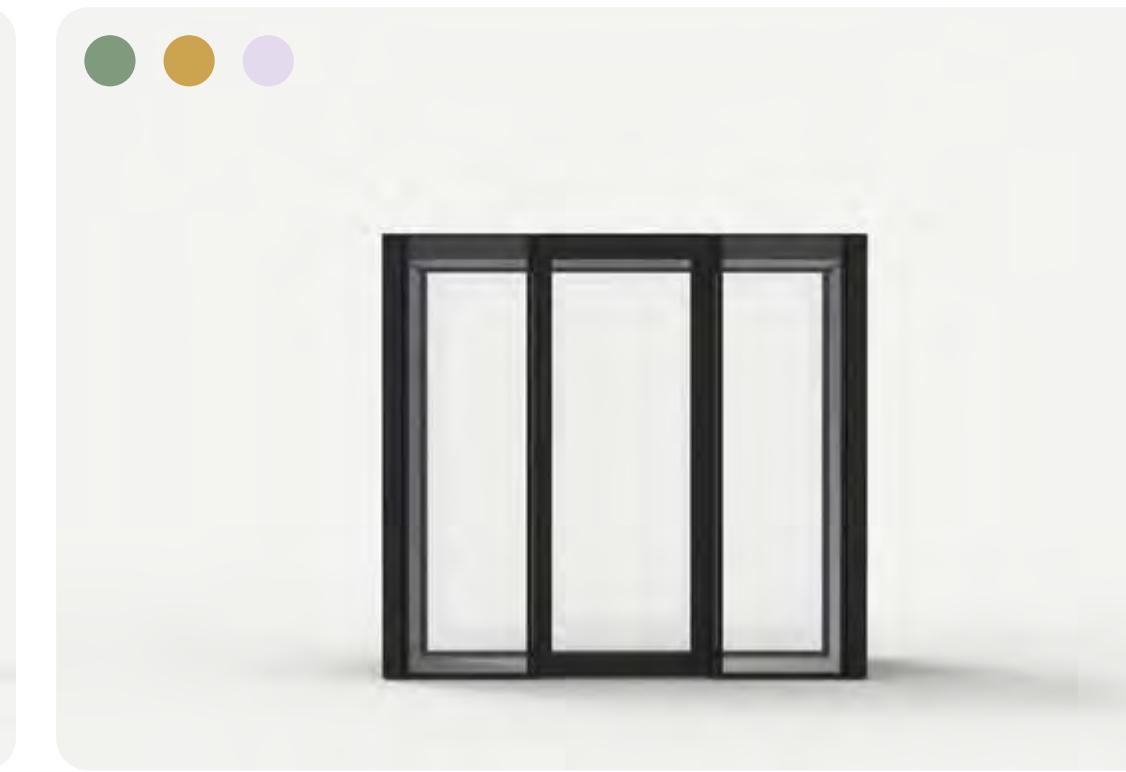

Collaborative Teams

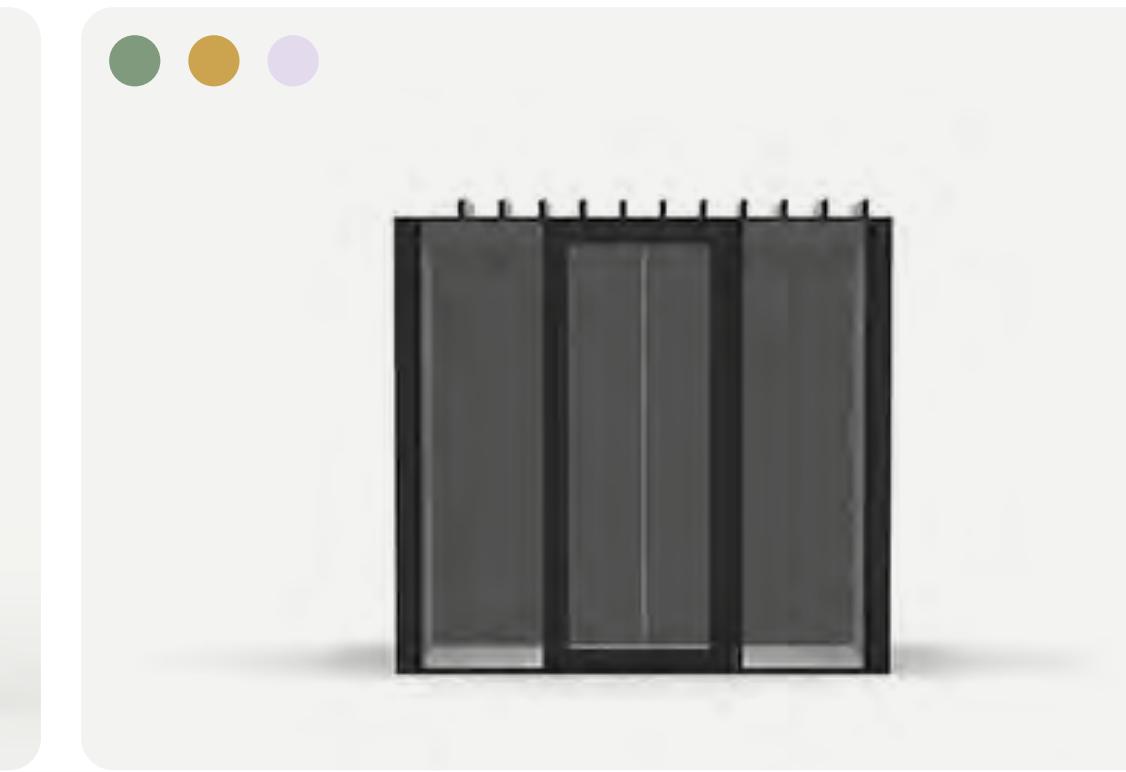

**Telephone Pod**  
One person

**Study Pod**  
One person

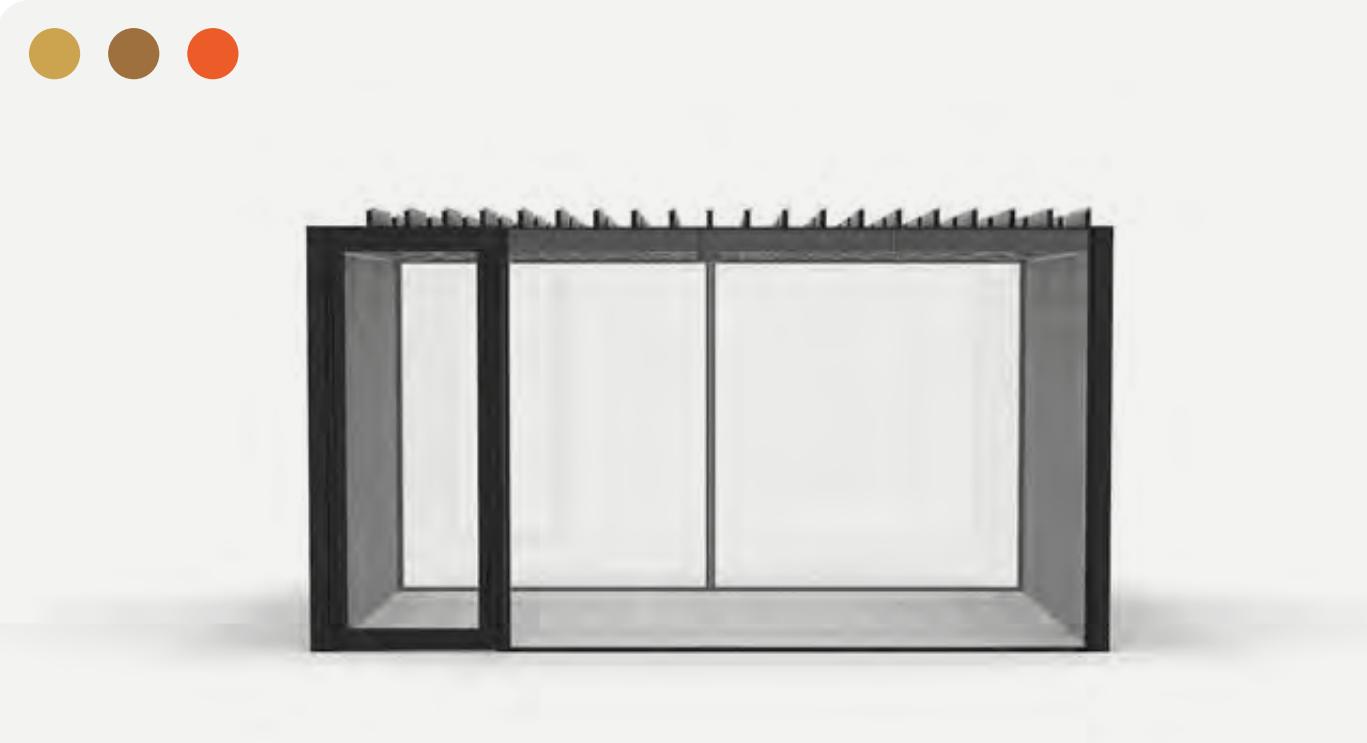

**Standard Focus Pod - V2-03**  
Suitable for two people

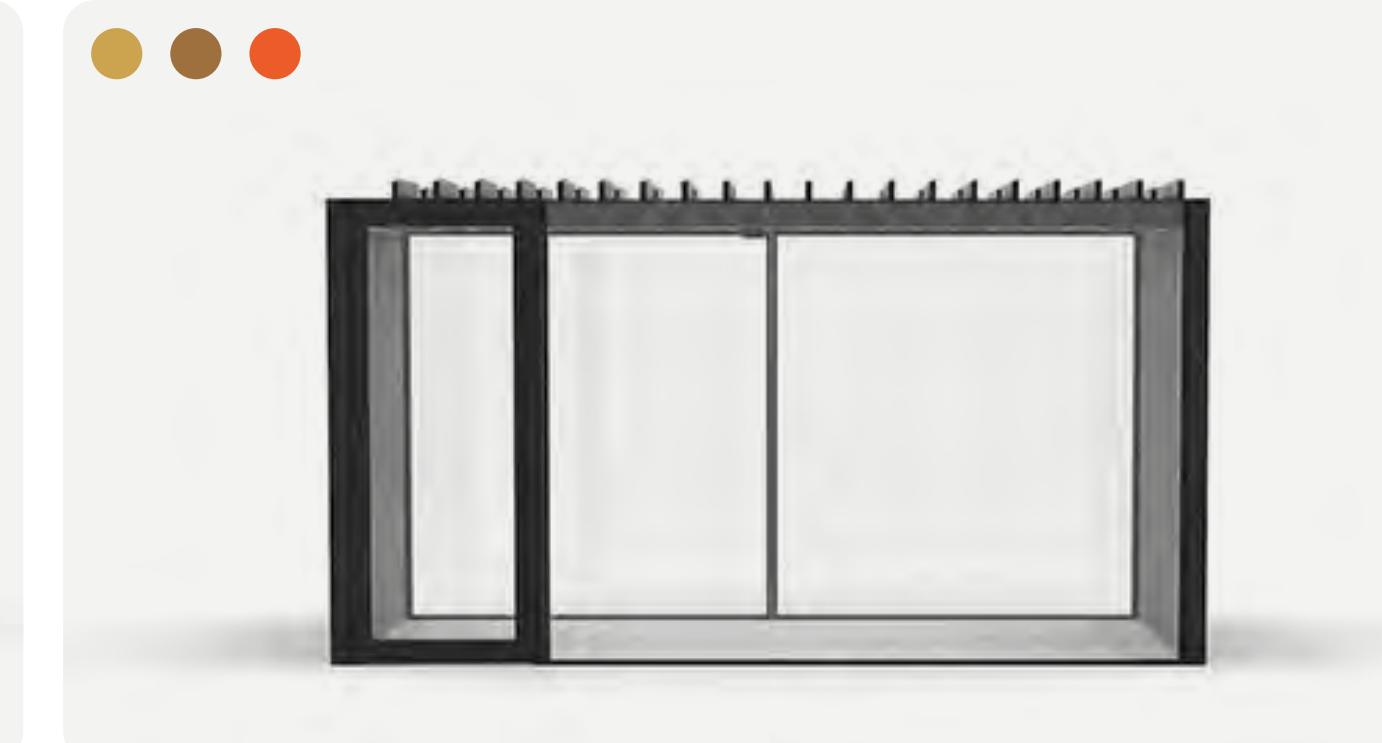

**Large Focus Pod - Active Roof - V2-04**  
Suitable for two people

**Small Meeting Room**  
Suitable for four people

**Six Person Rectangular Pod**  
Suitable for six people

**Eight Person Square Pod**  
Suitable for eight people

**Twelve Person Pod**  
Suitable for 12 people

# Meet CellPod:

- CellPod incorporating an Active Roof System, integrated dry wipe panels and a frameless glass panel corner detail.
- CellPod provides a great solution for a team collaboration and meeting space and can be situated immediately adjacent to other workspaces.

# Meet CellPod:

- The addition of the Portico on the outside wall of a CellPod helps define the space creating an additional collaboration space.
- CellPod incorporating a media screen allowing users to share content and collaborate. Integrated dry wipe panels a frameless glass panel corner detail.

# Meet CellPod:

CellPod can be configured to create large stand alone conference rooms with integrated media displays and dry wipe panels providing both formal and informal spaces for up to 12 people.

# Architectural Features:

## Intuitive Design

CellPod at it's core is made by from extruded Aluminium channels that allow for endless options of colours, finishes, and specifications.

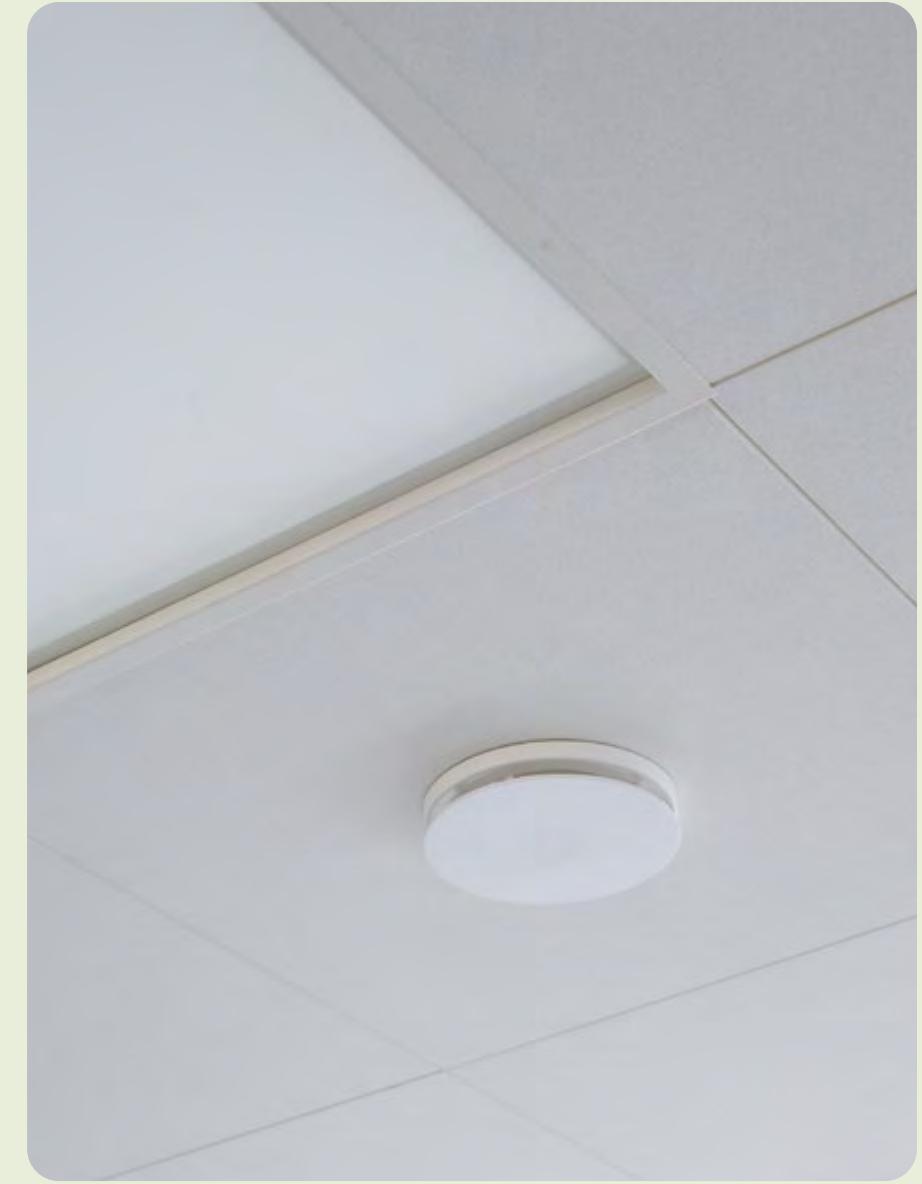

## Custom to you

The interior design can be specified to your requirements from drywipe, pinable or AV for conferencing.

## Form and function

The 10.8mm acoustic grade laminated glass sits in the aluminium frame to create a frameless glass panel corner detail.

Frameless Ecophon System

Utilise CellPod's exterior to maximise the possibilities in your workspace with a Portico.

# Our Active Ceiling System

Our patented (No.GB1718165.2) Active Ceiling System can be specified which complies with many international building safety codes in eliminating the need for fire suppression systems to be integrated directly into the roof of the Pod.

# One Person Pod

Escape the office and find a room of solitude for a quick call or the need to focus on writing that important email.

# Why acoustics matter

As the design of the workplace has moved to a more open landscape and the hybrid workstyles CellPod has the power to blend on-site with off-site users in acoustic privacy.

CellPods offer the ideal solution for a quick call, focused work, or a productive meeting. CellPod is a favourable solution to the traditional huddle and conference with configurations to suit every possible requirement.

This is important as visual and acoustic noise are key factor the way we all work.

99%

Of employees claim their level of focus decreases drastically due to office noises.

SP Banbury, DC Berry (2005).  
U.S. National Library of Medicine

# Testing, testing, testing, 1, 2, 3...

CellPod uses the latest innovations to achieve exceptional acoustics that are well above industry standard.

For example: When inside CellPod the perceived ambient noise omitted is reduced by over 90%.

These test results are according to EN ISO 354. Classification according to EN ISO 11654, and the single value ratings for Noise Reduction Coefficient, NRC and Sound Absorption Average, SAA according to ASTM C 423.

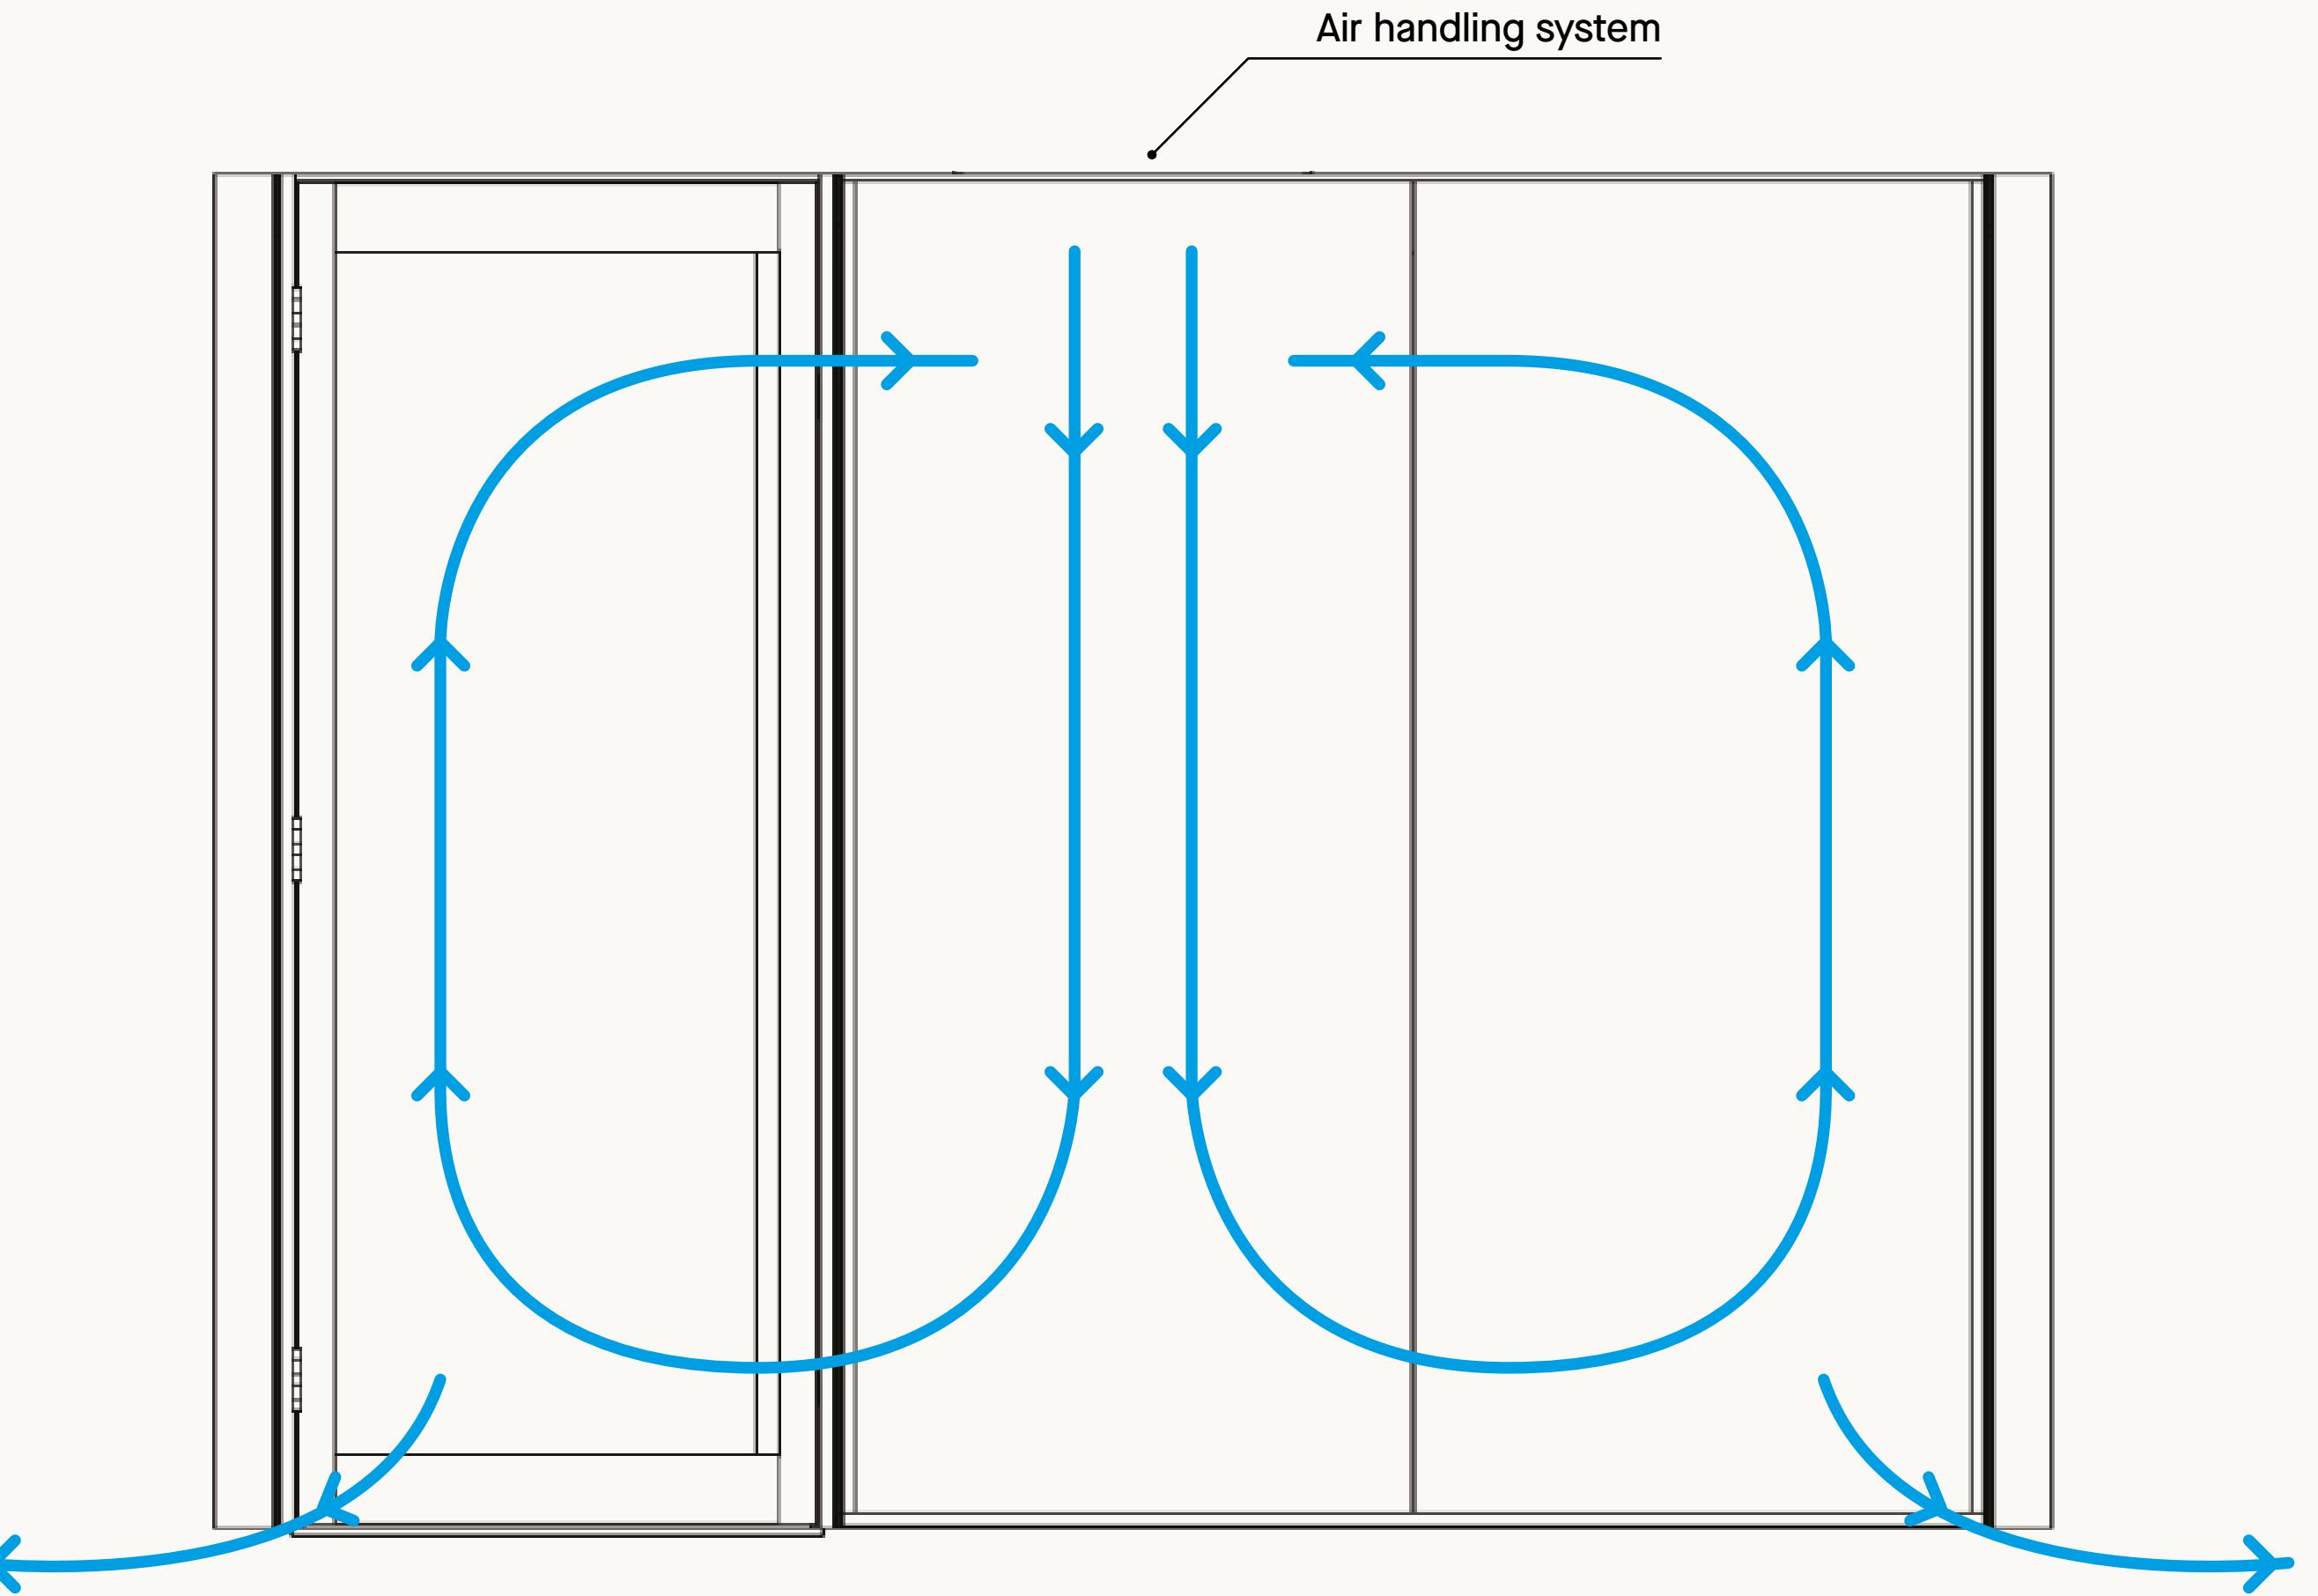

**-35(db)**

Measured in deciBels (db).  
Typical sound absorption values are:  
10.8mm acoustic laminated glass 35(db)  
Fabric panel (with barrier) 35(db).

# A Breath of Fresh Air

CellPods are stand-alone units and do not need integrating into a building's M&E infrastructure. As standard all pods are provided with an air handling system that refreshes the air within the pod maintaining a healthy environment with the air being drawn and returned to the wider building environment...

Each pod is specified with fans capable of changing the air internally to comply with regional standards at a minimum rate of 40Yds<sup>3</sup> per hour per person.

# The flexibility to reconfigure

CellPod can be designed to create your perfect space, fully compliant with all workplace regulations and tailored to suit your needs. And just as business adapt and change, so too can CellPod.

Due to CellPods panel construction and modular design it can easily accommodate and reflect the needs of your business and people.

**Reconfigurable:** Like every business, things change. The modularity of CellPod enables it to be easily moved or reconfigured on demand.

## Easy Installation:

The smallest Pod takes two people and two hours to install.

## Plug and Play:

All Pods come with the ability to be used on the day of delivery and can easily be tailored to suit your AV and power requirements.

# In detail

**Telephone Pod**  
One person

**Dimension:**  
Width: 1140mm  
Depth: 1140mm  
Height: 2260mm

**Product Code:**  
CELLV2-01

**Airflow:**  
1no. Airflow Envirovent Silent  
MV 160/100 50 l/s

**Lighting:**  
— 1no. LED Downlight Natural White 4000k  
— PIR controlled LED Lighting & Airflow  
— up to 30 minute timer

**AV capabilities:**  
Single Tier worksurface 41" AFF w/ Twin  
Power Outlet 1x Twin USB A+C 30w 47.5"

**Interior Walls:**  
Full fabric wall panels as standard

**Glass Panels:**  
10.8mm Laminated Acoustic, toughened to  
BS EN12150

**Pivot Door:**  
10.8mm Laminated Acoustic w/ magnetic  
closing latch non-lockable

**Ceiling:**  
Fixed Roof Only. Ecophon acoustic tile  
with inset LED lighting and ventilation fans.  
Tested to EN ISO354.

**Study Pod**

with inset LED lighting and ventilation fans.  
Tested to EN ISO354.

**Small Focus Pod - Fixed Roof**  
Suitable for two people

**Product Code:**  
CELLV2-03

**Airflow:**

1no. Airflow Envirovent Silent  
MV 160/100 50 l/s

**Lighting:**

- 1no. LED Luminaire Panel 600×600  
daylight 4000K
- PIR controlled LED Lighting & Airflow  
— up to 30 minute timer

**Dimension:**  
Width: 2450mm  
Depth: 1410mm  
Height: 2260mm

**AV capabilities:**

Optional TV Mount to suit 42"- 70" c/w  
Twin Power Outlet & Grommet

**Interior Walls:**

Full fabric wall panels as standard

**Glass Panels:**

10.8mm Laminated Acoustic (Dry Jointed  
Glass when more than one pane of glass)  
toughened to BS EN12150

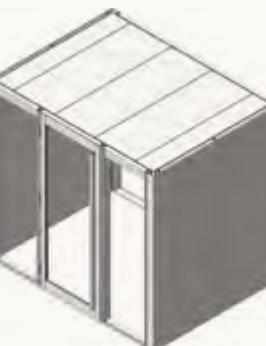

**Pivot Door:**

10.8mm Laminated Acoustic w/ magnetic  
losing latch non-lockable

**Ceiling:**

Ecophon acoustic tile with inset LED lighting  
and ventilation fans. Tested to EN ISO354.

**Large Focus Pod  
- Fixed Roof**  
Suitable for two people

**Product Code:**  
CELLV2-04

**Airflow:**

1no. Airflow Envirovent Silent  
MV 350/125 96 l/s

**Lighting:**

- 1no. LED Luminaire Panel 600×600  
daylight 4000K
- PIR controlled LED Lighting & Airflow  
— up to 30 minute timer

**Dimension:**  
Width: 2450mm  
Depth: 1810mm  
Height: 2260mm

**AV capabilities:**

Optional TV Mount to suit 42"- 70" c/w  
Twin Power Outlet & Grommet

**Interior Walls:**
