

Playbook

Why we designed Play:

As we transition from the traditional fixed desk office into a more open, collaborative, and informal working style, so to have our everyday working requirements.

Play is not one single individual product, it's a collection of pieces that work individually or complementary with existing Senator products.

At its core is interconnectivity and versatility designed to empower every user or team to reconfigure their office on demand.

Let's explore the possibilities...

Contents

Play Storage provides an elegant, modular, and versatile storage solution.

Play enriches the traditional desking office with more flexible working spaces.

Play Pods offer visual and acoustic privacy whilst helping to reduce proximity to other users.

Play Mobile Units create mobile collaborative spaces that users can configure on demand.

Play empowers teams to be more collaborative and social.

Create visual and acoustic privacy through the use of Play Screens and Storage.

Introducing Play

At Play's core is interconnectivity and versatility. What new working styles could you foster?
