- 30 Haven Pods
- 34 Play Pods
- 38 Pinnacle
- 42 Lockers

Here at Senator we create products that set the stage for people to do amazing things. We inspire possibilities for people to change the world in a million different ways, big and small, local, and global, every day.

What we do:

We create products for those who want to make their mark. On their own, together, in teams, or as organizations. Collaborators, innovators and connectors.

What we offer:

Products for working individually or collaboratively. Products for spontaneity and flexibility. Products for training and meeting. Products for focusing and privacy and products for homeworking.

CellPod

CellPod provides an excellent solution when creating privacy and collaboration spaces within work environments. They are designed as freestanding units and feature a structural framework with a demountable panel system so they are simple to install and reconfigure as needs change within an organization.

In addition to the standard configurations the CellPod system can be designed and manufactured to your own specification, providing unrivalled solutions for individuals to work in privacy and isolation through to comprehensive meeting room environments.

HideAway

From research we conducted prior to the pandemic one of the key takeaways was the desire for office-based workers to have a place for private focused activity.

For collaborative teams to have a space to gather away from their desk-based environments so they could get creative without disturbing their colleagues.

Roll forward to today and whilst the role of the office has shifted, right now, these requirements remain unchanged and in many cases the change in the way we now work has made HideAway even more relevant.

Shard 2.0

Our range of upholstered Shard 2.0 Pods, Work Booths, and Banquette Seating, makes any space suitable for multitude of uses from, formal to collaborative, private or social.

↓ [Shard 2.0 Pods](#)

Shard 2.0 offers a unique, show stopping domain for more secluded or collaborative conversations.

Each Shard 2.0 is clad with Senator standard 0.7" TFL. The roof is fitted with PIR activated downlights, meaning the light will activate with movement and can be modified to suit.

Haven Pods

Advances in technology, changing work patterns and trends towards open plan workspaces have resulted in an evolution of the modern workplace.

Haven Pods create both focused environments within open plan offices and provide ideal spaces for ad-hoc meetings and sharing ideas.

The products across the range offer different acoustic and privacy benefits. Their innovative geometric shape maximizes space efficiency whilst also reducing surrounding noise.

Play Pods

Play Pods offer a secure and quiet retreat from a busy office, allowing you to concentrate better on the task in hand. The upholstered screens create a tactile and distinctive finish whilst also allowing for better acoustics inside and outside the pod.

Pinnacle

The Pinnacle table range offers a lightweight solution to our other tables.

Due to its slender frame it is decorative as well as functional, fitting into any environment
