

Axis Tables

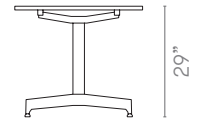

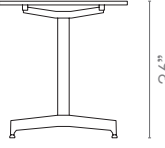

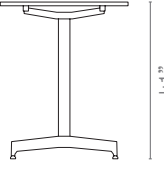

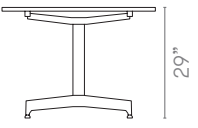

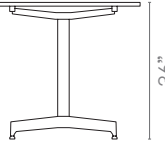

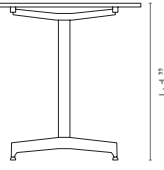

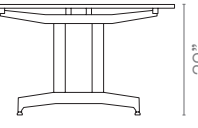

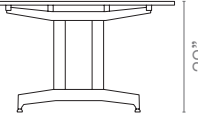

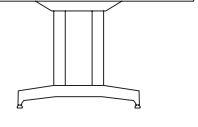

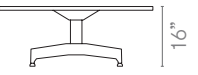

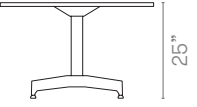

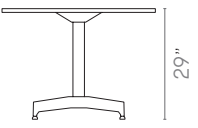

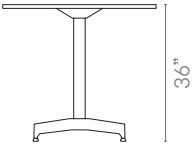

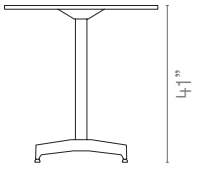

Axis connects people both digitally and physically through its extensive versatile design focused on power and connectivity. Whether it's for conferencing, training, meeting or collaboration - whether in person or digitally - Axis offers a variety of top sizes and configurations. Its core design ensures seamless integration of power and data, making it easier for users to stay connected.

Axis Tables – Product Specification

Standard Features (*Selected models only)
Rectangular, Soft Rectangular, Boat, Tapered, Video Conference, Square or Circular shaped available on 1" TFL or 1" Laminate on MDF core tops
Steel frame and rails
Aluminum columns, leg-castings and lower rails
Plastic leveling feet

Standard Features (*Selected models only)
Optional Cable Trays
Optional in surface or under table Power Options
Socket Tray covers for Power Options*

Dimensions

42" (D) Linear Tables					
48" (D) Linear Tables					
60" (D) Linear Tables					
72" (D) Linear Tables					
Four Leg Pedestal Tables					
Single Leg Pedestal Tables					

DESIGN

Allermuir Design Team

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimize the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

Summary of Grain Depth and Structure for Premium Woodgrain TFLs

Premium Woodgrain TFLs are part of Egger's Feelwood range, characterised by a deeper and more pronounced grain structure compared to standard TFLs. To manage this depth and prevent damage to the decorative paper, Feelwood decors incorporate additional barrier layers. This construction enhances impact resistance, bending strength, and durability.

What makes the Feelwood Premium Woodgrain TFL different?

The deeper texture in Feelwood decors is synchronized with the visual pattern, creating a highly realistic wood effect. This design also results in a slight thickness increase of approximately 0.02".

These features distinguish Feelwood products from standard TFLs, offering superior durability and enhanced aesthetic appeal as a unique selling point.

Due to the more pronounced grain structure, Premium Woodgrain TFLs may not be ideal where a smoother finish is required.

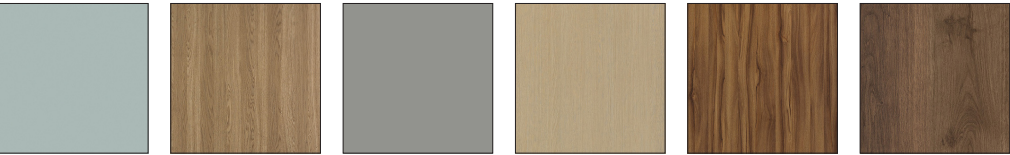

Samples can be ordered through our GroupPortal or by contacting customer service.

Axis - Finishes

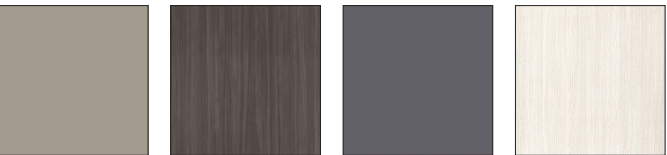

Global Laminates

Brite White Chestnut Woodline Dark Chocolate Diamond Black Ebony Fog

Fossil Millenium Oak Mouse Natural Ash Oiled Walnut Planked Coffee Oak
