

AD-LIB WORK LOUNGE

Collaboration is seen as the key to business success today and Ad-Lib Work Lounge has been developed specifically to react to this requirement. Designed by PearsonLloyd with postural flexibility and ease of movement as key factors, the Work Lounge design has been evolved

through a new construction methodology that has significantly reduced the use of PU foams, resulting in a light environmental footprint for this type of product.

Design by PearsonLloyd

Standard Features (*Selected models only)

- 4 Star base
- Plastic glides*
- 50mm Hard wheel castors*
- Tubular Steel back frame with foam over mould and self-support inner back membrane
- Fully upholstered in a select range of fabrics
- Fully upholstered height adjustable headrest*

Optional Features

- Castors for hard and soft floor coverings
- Soft touch orbital fold down work surface
- Two-tone upholstery
- Choice of finish options available – see finish page

DIMENSIONS

DESIGN

PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at the core is

an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 25% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on ADLWL01. For more detail please refer to individual EPA sheets.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle

AD-LIB WORK LOUNGE
