Contains up to 31% of Recycled Material

#### RECYCLABILITY

The range is 99% recyclable

# 99%

Environmental information for this range has been based on ARL30. For more detail please refer to individual EPA sheets.

### THE SENATOR GROUP 3 R'S

The Senator Group is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

**-Reduce, Reuse and Recycle.**

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

# -Reduce -Reuse -Recycle
